This bulletin shows direct trade between overseas countries and South Australia. INTERSTATE TRADE AND OVERSEA TRADE VIA OTHER STATES IS EXCLUDED.

In Table 1 final figures are given against all years except 1967-68. However, Tables 3 and 4 contain only preliminary figures because a distribution to commodity groups of the difference between preliminary and final figures is not readily available. Therefore the totals in those tables will not necessarily agree with totals shown for the relevant periods in Table 1.

In earlier publications statistics of exports and imports have been given for individual commodities. In this issue Table 2 shows quantities of principal commodities exported whereas Tables 3 and 4 give values of exports and imports by commodity groups based on the Standard International Trade Classification, Revised.

Value of exports is expressed \$A f.o.b. or its equivalent at port of shipment; value of imports is "transaction value" \$A f.o.b. or "domestic value" \$A f.o.b. at port of shipment, whichever is the higher.

Any discrepancies between totals and sums of components are due to rounding.
